this game reminds me why japan got nuked. Can't get rid of a boner.. Not much of a game. More like an eternal afk autoclicking grind. At least they implemented the progress-while-not-playing feature a while back (Before that you had to leave it running, which explains my 200+ hours in the game)

I think it serves as a demo to show some of the art style of the Sakura series of games.

A more fun example of this game type would be something like 'Crush Crush'.

Since you don't pay anything for it, and it doesn't format your hard drive or steal your identity (I think), I think it scores above 50% - and thus a positive rating.. Leonardo da Vinci could write with one hand and draw with the other at the same time. Well i can play this with one hand and fap at the same time.

Coincidence? I think not.. lol its free to play :D. I like the variety of girls, but their quality leaves much to be desired. Overall I'd recommend this game based on the deep gameplay and engaging plotline.. I saw boobs 10V10 would play for 20 more hours!. 11V10 best plot

Best game ever should cost like 10 pounds mate. i like boobs. First off i want to say that i dont like people that leaving a review after a 0.1 or 0.2 hours in game. Unless thats a review for a game that constantly crashes or simply dont even start and had to refund, i believe that judging a game so early its unfair and make Steam game evaluation system a crap. Just think about it, how many games have you seen on Steam, with overwhelming positive reviews from people giving a positive review to a game that they play... 10 minutes... on record...

Sakura Clicker its a "game" that all you need to do is clicking like crazy on "monster" girls while they are screaming in Japanese. And no, i am not trying to be funny, thats all that you can do. You click, you earn money, you buy allies with that money that they auto click for you to earn more money to buy more allies and so on... I played the "game" for 5 hours and thats all i could do...

Pros: Price: 10V10 (Free to Play with unimportant DLC)

Cons: Graphics: 04V10 (Kinda nice artwork but without any animation)

Sound: 02V10 (Music its repetitive and girl screaming its annoying)

Storyline: 01V10 (There is no storyline)

Gameplay: 01V10 (Nothing really to do there, just click)

Replayability: 01V10 (Nothing to achieve)

Overall: 3.1V10. AYE YO CUH THIS GAME GOT DEM POPPIN \u2665\u2665\u2665\u2665\u2665\u2665S FOR MY WEEB LUVIN SELF 10V10 BUSTED A NUT DO REC. Guilty pleasure. focken gr8 game m8 i r8 8V8 for real tho its a nice timekiller and pretty addicting

. This game is forever stuck in my played games. Can confirm the game can be played with one hand.
